More than two hundred years ago, the term “**environmental pollution**” was quite strange to people, they lived healthily, drank pure water, and breathed fresh air. Nowadays, the situation is quite different. People all over the world are worried about things that are happening to the environment. Actually it is man that is destroying the surroundings with many kinds of wastes. Everybody knows that motorbikes and cars emit dangerous gases that cause poisonous air and cancer, but no one wants to travel on foot or by bicycle. Manufacturers know that wastes from factories make water and soil polluted, but they do not want to spend a lot of their money on treating the wastes safely. Scattering garbage is bad for our health, but no one wants to spend time burying it. Is it worth talking a lot about pollution?

### VI. Read the text and do the tasks that follow

Almost all our energy comes from oil, coal, and natural gas. We call them fossil fuels. The earth's fossil fuels are running out. What will happen when there is no coal, oil and gas on earth?

Scientists are trying to find and use other alternative sources of energy. We can use energy from the sun, the wind, and the water.

Solar energy is unlimited. The sun supplies all the energy used to grow plants, to evaporate water for rain, and to maintain the temperature of the planet. All are necessary for human life. If we are able to collect solar energy, we will be sure to have this **abundant** source of power.

Another source of energy from nature is the wind which is clean and plentiful. Energy from the wind has been used for centuries to move ships, grind grain, pump water and do other forms of work. In recent time, wind has been used to generate electricity.

Water can also provide power. For a long time, people have used water to power machines. Some early uses of water were to mill grain, saw wood and power machinery for the textile industry. Today water is mostly used to generate electricity.

❖ **New words:**

- Fossil fuels: nhiên liệu hoá thạch
- Abundant = rich: giàu có, nhiều
- To evaporate: bốc hơi nước
- To grind grain: xay lúa
- To saw wood: cưa cây, xẻ gỗ

**Choose the best option to complete the sentences.**

1. We are asking the question “What will happen when there is no oil, coal, and gas on earth?” because.....
  - A. we are looking for other alternative sources of energy
  - B. we are looking forward to seeing great changes.
  - C. we are now depending so much on oil, coal and natural gas
  - D. other sources of energy can come from the sun, the wind, and the water

**Unit: 7 - Mức: 2 Key: C**

2. Which pairs of words can be used alternatively?
  - A. the sun / the wind
  - B. energy / power
  - C. rain / temperature
  - D. plentiful / unlimited

**Unit: 7 - Mức: 2 Key: B**

3. Centuries ago, people used the wind power to.....
  - A. maintain the earth's temperature
  - B. grow plants
  - C. pump water
  - D. generate electricity.

**XI. Read the following passage and answer the questions**

Are you looking for a cheap, clean, effective source of power that doesn't cause pollution or waste natural resources? Look no further than solar energy from our sun. At present, most of our electricity comes from the use of coal and gas, oil or nuclear power. This power could be provided by the sun. One percent of the solar energy that reaches the earth is enough to provide power for the total population. Many countries have already used solar energy. Solar panels are placed on the roofs of our house and the Sun's energy is used to heat water. The energy can be stored for a number of days, so on cloudy days you can use solar energy, too. Sweden has an advanced solar energy program. There, all buildings will be heated by solar energy and cars will use solar energy instead of gas by the year 2015

1. Does solar energy cause pollution?
  - a. Yes, it does.
  - b. No, it doesn't.
  - c. No. Solar energy causes pollution
  - d. Yes. Solar energy causes pollution

**Unit: 7 - Mức: 1 Key: b**

2. How much solar energy is enough for the world's population?
  - a) Two percent of the solar energy.
  - b) One- third of the solar energy.
  - c) One- fifth of the solar energy.
  - d) One percent of the solar energy.

**Unit: 7 - Mức: 1 Key: d**

3. Where are solar panels installed?
  - a) They are placed in the garden of the house.
  - b) They are placed on the branches of the tall trees behind the house
  - c) They are placed on the floor of the house
  - d) They are placed on the roofs of the house

**Unit: 7 - Mức: 1 Key: d**

4. How can we use solar energy on cloudy days?
  - a) The energy can't be stored for a number of days
  - b) The energy can be stored for a number of days
  - c) Solar energy can only use on the sunny days.
  - d) The Sun's energy is used to heat water.

**Unit: 7 - Mức: 2 Key: b.**

5. When will cars use solar power instead of gas in Sweden ?
  - a) by the year 2050
  - b) by the year 2055
  - c) by the year 2015
  - d) by the year 2035

**UNIT EIGHT : CELEBRATIONS**

**Choose the item among A, B, C or D that best answer the questions about the passage**

**1.**

A birthday is the day when a person was born. In many places, on a person's birthday, he or she celebrates a party with friends and family. They eat cakes or other foods, and get gifts.

In many English-speaking countries, people sing the song “Happy Birthday to You” to the person celebrating his birthday. There are similar songs in other languages.

A birthday cake is usually decorated and covered with candles. The number of candles is usually the same as the age of the birthday person.

A birthday can give a person new responsibilities and rights.

In the United States of America, a person can buy tobacco and pornography, vote, and become a legal adult at the age of 18.

In Latin America, a quinceañera party marks a girl’s 15<sup>th</sup> birthday.

1. What does a person often do on his / her birthday? – **Mức 2**
  - A. makes a birthday cake
  - B. has a birthday party
  - C. wraps birthday gifts
  - D. plays birthday games

**Key : B**

2. Who is the song “Happy Birthday to You” sung to? - **Mức 2**

Tet is a national and family festival. It is an occasion for every Vietnamese to have a good time thinking about the last year and the next year. At Tet, spring fairs are organized, streets, and public buildings are brightly decorated and almost all shops are crowded with people shopping for Tet. At home, everything is tidied, special food is cooked, offerings of foods, fresh water, flowers and betel are made on the family altar with burning joss-sticks scenting the air.

First-footing is made when the first visitor comes and children are given lucky money wrapped in a red tiny envelope. Tet is also time for peace and love. During Tet, children often behave well and friends, relatives and neighbors give each other best wishes for the New Year.

Christmas is the biggest festival of the year in most western countries. Celebrations start properly on December 24, Christmas Eve, although there have been several weeks of preparations beforehand. The Christmas tree and all the presents, food, drinks and decorations have been bought. Christmas cards have already been sent to friends and relatives. About a week before Christmas people usually put up their decorations and decorate the Christmas tree with electronic lights, various colored decorations and an angel on the top. Family presents are usually put under the Christmas tree.

Christmas Day, December 25, is the biggest day of the holiday. On the Christmas morning (often very early), children open the presents that are in their socks. Many families go to church. The traditional Christmas dinner consists of roast turkey with potatoes and various other vegetables. Before the dinner, people usually pull crackers – small rolls of paper that have gifts, jokes, and party hats inside.

In the United States, people celebrate Mother's Day and Father's Day. Mother's Day is celebrated on the second Sunday in May. On this occasion, mother usually receives greeting cards and gifts from her husband and children. The best gift of all for an American Mom is a day of leisure. The majority of American mothers have outside jobs as well as housework, so their working days are often very hard. The working mother enjoys the traditional Mother's Day custom of breakfast cooked by her family and served to her on a tray in bed. Later on that day, it's also traditional for the extended family group to get together for dinner, either in a restaurant or in one of their homes.

Flower is an important part of Mother's Day. Mothers are often given a plant for the occasion, particularly if they are elderly.

Father's Day is celebrated throughout the United States and Canada on the third Sunday in June. The holiday customs are similar to Mother's Day. Dad also receives greeting cards and gifts from his family and enjoys a day of leisure.
