The Rice-cooking Festival

The festival was held in the communal house yard about one kilometer away from a river. There were three competitions: water-fetching, fire-making and rice-cooking. The festival took one day.

In the water-fetching contest one person from each team had to run to the river to get the water.

In the fire-making contest two team members had to make a fire in the traditional way. They tried to rub pieces of bamboo together to make the fire.

Six people from each team took part in the rice-cooking contest. They had to separate the rice from the husk and then cooked the rice.
